Annual Benefit Maximum

The Dental Wellness Plan, like many other dental plans, has an Annual Benefit Maximum of \$1,000. This is the maximum dollar amount the DWP will pay toward the cost of dental care during a benefit year (July 1 – June 30).

The following services are EXCLUDED from the Annual Benefit Maximum:

- Exams, x-rays, cleanings, dentures and partials, and sedation related to oral surgery
- Emergent/urgent services with clinical documentation
- DWP members that are 19 and 20 years old are also EXCLUDED from the Annual Benefit Maximum

Delta Dental pays your dentist for covered services, up to your \$1,000 annual benefit maximum. You will not have to pay for covered dental services if you see a dentist that is part of the DWP Delta Dental network if you stay within your annual benefit maximum. If you have reached your \$1,000 annual benefit maximum and the service(s) you get are not excluded or emergent/urgent, you will have to pay for the service(s), whether it is a covered service or not.
